FOR CLEAN LIGHT LIGHT FIXTURES TO BE FITTED IN LIGHTWEIGHT METAL SUSPENDED CEILING LP2

Fluorescent lamps For Clean Light are used for the lighting of interiors with a controlled class of cleanliness. They are mounted into the lightweight metal suspended ceiling FOR CLEAN, they are air-tight, thereby ensuring pressure tightness of the entire suspended ceiling. The light fixture features IP 54 ingress protection according to EN 60529 (IEC 529).

The surface finish and the colour of the light fixtures are identical to the ceiling.

TECHNICAL DATA

Section in project documentation

snap-on FOR CLEAN LIGHT fixtures to be fitted in lightweight metal suspended ceiling LP2

Grid dimensions x light fixture height

width	depth
312,5 mm	625 mm
625 mm	625 mm
625 mm	1250 mm
